Guest Speaker Information

An experienced investigator in biomedical research, Dr. Craig Meyers leads a team of researchers at Penn State College of Medicine. Their studies on the AAV-2 virus hold a great deal of promise, as the virus successfully kills cancer cells, namely breast cancer cells, without damaging other parts of the body.

Sponsorship opportunities still available! Please contact Jennifer Doyle, jdoyle@tfec.org, for more information.

If you are unable to attend but would like to contribute to the Women's Fund, please contact Mark Bradshaw.
