Accidental Astronaut

by Kaylee Webb

Ever since his father’s spaceship was knocked off course by a rogue asteroid, Colin Powell has been obsessed with space. He dreams of becoming an astronaut one day—but only if he can survive the class bullies, whose sole function in life seems to be making Colin’s life miserable.

Naturally, when Colin’s class takes a field trip to NASA, he’s the first in line with his permission slip signed and bags packed. He is super excited to learn more about space and maybe even help NASA find his father. Little does Colin know that this field trip is about to turn into the adventure of a lifetime.

When his tormentors’ cruelty reaches new heights, and Colin is knocked unconscious, he wakes to find himself somewhere he never imagined he would be…and he’s not alone.

Will Colin discover where he is, and more importantly, will he figure out a way to get back home? Will he find his father and be reunited with his mother, or will he himself be lost forever?
