Cash or check only; email FriendsOfAustinCD@gmail.com to enter
Winners do not need to be present to win. For complete rules visit www.tfec.org/friendsofaustin

Meet Friends of Austin

We are inspired by our friends, Mark and Hannah Corman, whose son Austin was born with a fatal form of congenital muscular dystrophy called L-CMD, primarily affecting the muscles & heart. Kids with an L-CMD diagnosis statistically die in their teens. **There are currently no treatments and no cure.** Austin's family has started the non-profit L-CMD Research Foundation to urgently raise funds to develop a gene therapy treatment with a major academic research institution. The goal? \$2 million.

L-CMD Research Foundation has created a fundraising campaign, "2 Before 2!" which aims to raise \$2 million before Austin's 2nd birthday on August 27th. Friends of Austin presents the 2 Before 2! Golf Outing, benefiting the L-CMD Research Foundation, to help reach this important goal.
