

Make Your Own Paint

What you'll need:

1. 3/4 cup water
2. 1 cup warm water
3. Food coloring
4. Bowls/containers

Use your creativity, practice math skills, and color recognition!

Make Your Own Paint

1. In a bowl mix together the flour with warm water until the mixture is very smooth.
2. Divide into however many containers you prefer and stir in your desired amount of food coloring.

Have fun and paint away!

Make Your Own Paint

This paint does not store well, so be sure to only make what you think you will use that day!
