Your Financial Aid History Information

The information below is the total amount of student loans that you owe. These loans are administered by the U.S. Department of Education (ED). You should confirm that these loan totals are correct. You can view details on the individual loans that make up these totals at the National Student Loan Data System (NSLDS) Web site. If you feel that the amounts listed on this page are incorrect, or you have other questions related to a loan, you should contact the loan servicer indicated on the NSLDS Web site. You can obtain general information about each of the types of loans that are listed below by visiting our StudentAid.gov Web site.

Note that the "Subsidized" and "Unsubsidized" amounts include the appropriate portions of any Consolidation Loans you may have. If there is an amount listed for "Unallocated Consolidation Loans" it is because we could not determine whether those balances were subsidized or unsubsidized.

Remember you are responsible for repaying all of the amounts that you borrow, plus interest. As a general rule, with an assumed interest rate of 5%, the monthly payment amount over a ten-year repayment period would be approximately \$10.61 for every \$1,000 that you borrowed. Of course your actual repayment amount will depend upon how much you borrow, the interest rate when you enter repayment, and how long your repayment term is.

I always kind of knew what I wanted to do with my life growing up. Animals and the wildlife are a topic that I thoroughly enjoyed and I knew I wanted to work with animals and have a relationship with them. Knowing this, I knew post-secondary education was in my future. My dream job, working in sanctuaries and rehabilitation, requires a great knowledge in science and quite a bit of experience. Working in wildlife conservation means you would need a lot of knowledge in not only animals and biology, but also how their ecosystems work together. By going into post-secondary education, I am able to gain more experience and learn much more about the field I want to go into. Handling animals is a required skill and I know if I go to the right school, I can gain this experience and great amount of knowledge.

Delaware Valley University was one of the first schools I looked at and immediately became my dream school. I came from a small high school and was looking for the similar experience. The student to staff ratio and the family-like community was something I wanted. And DelVal is just that: a small, D3, agricultural school. They are known for animal majors ranging from equine science to zoo science. With a farm, livestock, apiary building, greenhouse, and two small animal labs, there is hands on learning for nearly every science and environmental class. The hands-on experience is just what I need, and I knew I could get it by going to Delaware Valley and was excited to go. Now that I am now two semester in, I can safely say that this school was the best decision I could have made. Everything advertised was correct and even better. The push for obtaining knowledge and experience is so great that it is no wonder that the employment rate for alumni is so high. Moving forward, I know I will be able to attain my dream job as long as I continue to work hard at Delaware Valley. I cannot wait for my next three years there and have high hopes for my career path.
